PROFESSIONAL SUMMARY

Senior Developer with **4+ years of software development experience**, including **1.5+ years of dedicated Zoho development** across Zoho CRM, Creator, Books, Desk, Inventory and People. Expert in **Deluge scripting** and Zoho CRM customisation (custom modules, layouts, fields, buttons, Blueprints, widgets). Delivered **12+ third-party integrations** using Zoho APIs, REST, OAuth 2.0 and webhooks for clients in fintech, e-commerce, real estate, healthcare, events and fitness, including **8 payment gateways**. Brings a full-stack web background (JavaScript, HTML, CSS, React, Angular, Node.js, SQL), hands-on code review and mentoring of junior developers, and experience working in Agile/Scrum teams.

CORE SKILLS

Zoho Development: Deluge scripting (custom functions, workflow rules, validation, scheduled functions), Zoho CRM customisation (custom modules, layouts, fields, buttons, Blueprints), Zoho Creator, CRM & Creator widgets

Zoho Applications: Zoho CRM, Zoho Creator, Zoho Books, Zoho Desk, Zoho Inventory, Zoho People, Zoho Flow

APIs & Integration: Zoho REST APIs, RESTful services, OAuth 2.0, Webhooks, JSON/XML, data synchronisation, imports and exports

Integrations & Payments: Razorpay, Stripe, PayPal, Checkout.com, PayTabs, Network International, RAKBANK, Lean Technologies, VaultsPay, AiPrise (KYC/KYB), Shopify, Hotmart, Bayut, Property Finder, Microsoft 365, Ziwo, Insta by Practo

Web Development: JavaScript (ES6+), HTML5, CSS3, TypeScript, React.js, Angular, Node.js, Express.js, .NET Core, GraphQL

Data & SQL: SQL, data modelling, PostgreSQL, MySQL, Azure SQL, MongoDB, Snowflake

Cloud & Tools: AWS (EC2, S3, Lambda), Microsoft Azure, Docker, Apache Tomcat, Git, GitHub, Jira

Ways of Working: Agile / Scrum, code reviews, mentoring junior developers, technical documentation, stakeholder collaboration

PROFESSIONAL EXPERIENCE

Senior Developer — **Feb 2025 – Present**

Zocoden – Zoho Premium Partner (formerly Alchemist Advanced Technologies) — *Dubai, UAE*

Zoho Development & Customisation

- Design, develop and customise Zoho applications – CRM, Creator, Books, Desk, Inventory and People – for clients across 6+ industries.
- Write advanced Deluge scripts for custom functions, workflow rules, field validation and scheduled automation.
- Customise Zoho CRM with custom modules, layouts, fields and buttons, and implement Blueprints to enforce structured business processes.
- Build Zoho Creator applications and custom JavaScript widgets that extend the standard Zoho CRM and Creator interface.
- Manage data synchronisation, imports and exports between Zoho and external systems, and troubleshoot production issues to keep integrations stable.
- Review code and mentor junior developers on Deluge and integration best practices; deliver work in Agile/Scrum sprints using Jira.

Third-Party Integrations (Zoho APIs, REST, OAuth 2.0, Webhooks)

- **Payment gateways:** Integrated Zoho CRM and Zoho Books with Razorpay, Stripe, PayPal, Checkout.com, PayTabs, Network International, RAKBANK and Lean Technologies – automating payment-link creation, payment capture, invoice status updates and reconciliation.
- **VaultsPay + AiPrise:** Integrated the VaultsPay fintech platform with Zoho CRM and AiPrise to automate customer onboarding with KYC/KYB verification and compliance status tracking.
- **Shopify:** Configured the standard Zoho–Shopify extension and built a custom integration with Zoho CRM and Books to sync customers, orders, products and invoices beyond the default connector.
- **Hotmart:** Connected the Hotmart digital-product platform to Zoho CRM via webhooks to capture buyers, purchases and subscriptions in real time.
- **Bayut & Property Finder:** Automated lead capture (including WhatsApp leads) into Zoho CRM and generated XML property-listing feeds from CRM for portal publishing.
- **Vivaticket:** Integrated ticketing data with Zoho CRM and Books to sync customers, bookings and invoices.

- **Insta by Practo:** Integrated clinic billing with Zoho Books for automated invoice and payment posting.
- **AllUp:** Integrated the AllUp gym-management API with Zoho CRM to sync members and memberships.
- **Zedonk:** Integrated Zedonk with Zoho CRM to keep customer and order data in sync.
- **Zoho Books → Azure:** Built a data pipeline syncing Zoho Books financial data into an Azure SQL database for reporting and analytics.
- **Microsoft 365 → Zoho CRM:** Integrated Microsoft 365 with a custom Mailshots module in Zoho CRM to send and track email campaigns.
- **Ziwo → Zoho Desk:** Integrated the Ziwo cloud contact-centre platform with Zoho Desk to log customer calls and create and update support tickets automatically.
- **Biometric attendance:** Set up an Apache Tomcat middleware server to push biometric device punches into Zoho People, automating attendance tracking.

Full Stack Software Developer **Jan 2023 – Dec 2024**
Paripoorna Software Pvt Ltd (Chennai) *Bangalore, India · Hybrid*

- Led development of web applications with Angular and .NET Core for logistics and recruitment products.
- Built a container maintenance system (container-depot software) to track repairs, estimates and costs, using Angular, .NET Core and PostgreSQL.
- Developed a real-time job-seeking platform with the MERN stack and GraphQL, including search and user authentication.
- Delivered an inventory management solution for real-time stock tracking.
- Designed RESTful APIs, optimised data access with Entity Framework and PostgreSQL, and managed deployments on AWS (EC2, S3, Route 53).
- Integrated Razorpay, PayPal and Stripe for automated billing and introduced Dockerised CI/CD pipelines.

MERN Stack Developer **May 2022 – Jan 2023**
LoadRunnr Technologies Pvt Ltd *Bangalore, India*

- Developed a transport management system with React.js, Node.js and Socket.IO for real-time vehicle and order tracking.
- Integrated PayPal and Razorpay payment gateways for digital payments.
- Implemented JWT authentication and real-time notifications with Firebase Cloud Messaging.
- Deployed on AWS (EC2, S3) and automated build and deployment with CI/CD pipelines.

MERN Stack Developer (Trainee) **Jul 2021 – May 2022**
Brototype (Brocamp) *Kochi, India*

- Completed an intensive, project-based MERN stack programme delivering production-style applications.
- Built and deployed e-commerce and logistics applications with React, Node.js, Express and MongoDB on AWS EC2 with Nginx and Route 53.

KEY PROJECTS

- **Payment Gateway Integration Suite (Zoho CRM & Books) –** reusable integrations for 8 gateways covering payment links, webhooks and automatic invoice reconciliation.
- **Real-Estate Lead & Listing Automation –** Bayut / Property Finder leads and WhatsApp enquiries into Zoho CRM, with XML listing feeds generated from CRM.
- **Container Maintenance System –** repair and cost tracking for container depots. Angular, .NET Core, PostgreSQL.
- **Transport Management System –** real-time logistics tracking. React.js, Node.js, Socket.IO, AWS EC2/S3.

EDUCATION & CERTIFICATIONS

Bachelor of Arts (Sociology) – University of Calicut, Kerala 2018 – 2021

- **Snowflake (Trained)** – Cloud Data Warehousing · ID: SNOW00296939
- **MERN Stack Development** – Brototype (Brocamp), 2021 – 2022
